

PETITION TO KEEP NATURAL GAS

TO The Legislative Assembly of Ontario:

WHEREAS the Ontario Government is proposing to force all Ontarians using natural gas energy for their homes or businesses to switch to more expensive electricity; and

WHEREAS for the 76 percent of homes and businesses in Ontario that heat with natural gas switching to electricity will increase their energy bills by more than \$3000 per year; and

WHEREAS the elimination of affordable natural gas will devastate family budgets and destroy the province’s natural gas industry; and

WHEREAS the plan to ban the use of natural gas in Ontario is just one small part of an environmental agenda that is threatening the jobs and financial well-being of hundreds of thousands of Ontario residents;

THEREFORE, we the undersigned petition the Legislative Assembly of Ontario as follows:

That the Government of Ontario and Premier Wynne immediately scrap this plan and instead allow Ontario residents and businesses the freedom to use natural gas to meet their heat and energy needs.
